

★ **BCM** MODULAR LIGHT MOUNTS

LOW LIGHT APPLICATION

The BCMGUNFIGHTER™ Light Mounts for KeyMod™ and M-LOK® deliver a fully ambidextrous light platform built from durable Aluminum and designed to be low-profile and snag-free.

Made to mount flush or to cantilever off either the left or right side of the rail system, the light mounts are secured to the handguards via a patent pending anchoring system.

*M-LOK® is a registered trademark of Magpul Industries Corp.

SCOUT OFFSET

Designed for use with the Surefire™ line of Scout Lights® and Mini Scout Lights®, the BCMGUNFIGHTER Scout Modular Light Mount is optimized to interface with a BCM KMR-A or MCMR rail system at the 3 or 9 o'clock rail positions. Finally, the light mount features multiple mounting points for ideal placement by the end user.

ONE INCH RING

Built to interface with majority of popular 1-inch round body tactical light systems on the market today, the BCMGUN-FIGHTER One Inch Modular Light Mount is designed to mount at the 1:30 or 10:30(upper 45° degree) rail positions.

1913 OFFSET

Compatible with most common 1913-rail pistol/weapon light systems, the BCMGUNFIGHTER 1913 Modular Light Mount is optimized to interface with a modular rail system at the 3 or 9 o'clock rail positions. With optional high and low mounting positions for the 1913 rail section, the light mount features multiple mounting points for ideal placement by the end user.
